

## ELL INSTRUCTIONAL TRAINING VIDEOS

### Social Studies

The ELL instructional videos provide segments of teachers demonstrating strategies from each key area—ffective, linguistic, and cognitive—in authentic classroom settings. These professional development videos highlight specific cognitive, linguistic, and affective teaching strategies that use language as the means through which content is taught.

#### Affective Learning Environment Playlist

*Think about:*

Why was it critical for the teacher to establish discussion norms in the classroom?

How did the teacher encourage confidence and self-assurance in the classroom?

#### Linguistic Learning Environment Playlist

*Think about:*

What types of instructional strategies did the teacher use to model and explain the lesson?

How did the teacher encourage sentence frames/stems in the classroom to promote speaking?

#### Cognitive Learning Environment Playlist

*Think about:*

How did the teacher make connections with the past and present?

What type of questioning did the teacher use to know the students' background knowledge in order to connect to new learning?
