

ELL Student Population

ELLs in our schools are a diverse group of students. They vary widely in their educational backgrounds and knowledge of the English language. Therefore, as campus administrators it is critical to identify the linguistic supports that will enable ELLs to achieve high levels of proficiency in English as well as academic success.

In addition, campus leadership must have an understanding of how integrating the ELPS into content area instruction and aligning classroom instruction to ELLs language proficiency levels provides linguistic and cognitive supports.
